The Faculty.

The faculty consists of Enoch Jorgensen, principal of the Sandy school, instructor principal of the Sandy school, instructor in history and oral expression; O. H. Dutton, instructor in science and director of athletics; Ross Anderson, instructor in mathematics and bookkeeping; Ada Hartley, Ph. D., of the University of Wooster, Ohio, instructor in domestic art, Latin and German; Maud Williams, B. A., of the University of Utah, instructor in instrumental music, physical culture and English; Lorenzo W. Clark, supervisor of music; Bernice E. Day, B. A., University of Utah, instructor in languages and history.

Three years of high school work are now offered at Sandy and two years at Bingham. The efficiency of the Sandy school has greatly increased during the last few years and its work is now accepted at the University of Utah the same as other accredited high schools of the great of the state. The work at Bingham is not as broad as that at Sandy, but the results as broad as that at Sandy, but the results obtained from the courses offered are very satisfactory. Both schools have been warmly commended by Professor Mosiah Hall, state high school inspector.

Advantages.

An advantage obtained in smaller high chools, such as is not always found at arger schools, is that the classes are mall and in consequence the student probably receives more individual attention than in large schools.

The high schools at Sandy and Bingham are free to residents of the district. Non-residents are required to furnish their own text books and to pay a small laboratory fee. Graduates of common school courses are admitted without examination. Others are required to take examinations in the common branches.
